

NASA Hq jan 2018

søndag 7. januar 2018 17.08

The agenda items are partly from the discussions we had during the recent AGU Fall Meeting tag-up. I urge the PI's to notice item 3, and encourage them to prepare for the meeting :-)

1. Kolbjørn Blix (GCI-cusp project manager):

Why are we here?

- Groups on data sharing (NASA/US, UiO/Nor, JAXA/Jp)
- Communication strategy and plan
- Last minute news from ASC
- Project plan update (missions/ grouped in campaigns)

2. TBD: Update from ongoing actions at Wallops (Scott Bisset?)

3. Jøran Moen (GCI-Cusp project scientist):

Plans on research collaboration under the GCI-cusp umbrella.

How to share data?

Timelines

Formats

4. Engage with the wider community:

Get the ground based communities involved now

GCI @ GEM/CEDAR, June 2018

Who does what, who to invite?

5. Hilde Lynnebakken, GCI Public Outreach Coordinator:

Present GCI communications plan first draft

Based on the attached comms plan draft, and with special attention to:

1. Who will be the Key Staff Doing the Communicating?
2. What are the Communications Goals and Objects?
3. Who is the Target Audience(s)?
4. When and How Frequently to Plan to Communicate?
5. How to Communicate the Results?
6. What Resources Are Available for Communicating?
7. What is NOT to be Communicated?

Target: Comms plan milestones for the GCI period 2018-2020
